NS Project No. NS.13531.001.015

Bill Cork
Chief Executive Officer
Hancock County Port and Harbor Commission
14054 Fred & Al Key Road
Kiln, MS 39556

Re: PHASE I ENVIRONMENTAL SITE ASSESSMENT
PORT BIENVILLE INDUSTRIAL PARK – SITE 6
PEARLINGTON, MISSISSIPPI

Dear Mr. Cork:

We have completed the Phase I Environmental Site Assessment for the referenced property located to the southwest of Port and Harbor Drive in Pearlinton, Mississippi. I have attached one electronic copy of the report.

We appreciate the opportunity to provide you with environmental consulting services. Should you have any questions concerning this information, please contact me at (228) 374-1211.

Sincerely,
NEEL-SCHAFFER, INC.

Cori L. Gavin
Environmental Scientist

1.0 SUMMARY

The Hancock County Port and Harbor Commission (HCPHC) retained Neel-Schaffer, Inc. to perform a Phase I Environmental Site Assessment (ESA) in accordance with ASTM E1527-13 *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* for the Port Bienville Industrial Park Site 6, Port and Harbor Drive, Pearlington, Mississippi, the *property*. Per 40 CFR Part 312 amendment dated December 30, 2013, adherence to ASTM E1527-13 complies with the All Appropriate Inquiry Rule and satisfies one of the requirements to qualify the User for landowner liability protections under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). These landowner liability protections include: (1) innocent landowner, (2) contiguous *property* owner, and (3) bona fide prospective purchaser. The Phase I ESA scope of work included reviewing User provided information, conducting a site reconnaissance, reviewing reasonably ascertainable environmental records, reviewing reasonably ascertainable historical records, conducting interviews with past and present owners, operators, and/or occupants, evaluating the information, and preparing a Phase I ESA Report.

At the time of the site visit on April 27, 2017, the approximate 50-acre *property* was generally undeveloped land. Four unimproved access/egress roads were observed on the *property*, and a stockpile of crushed limestone was located along the southwestern border. The *property* appears to be undeveloped, with the exception of some clearing and a few access roads, from 1893 until present.

The *property* is listed as Polychemie, Inc. at 3080 Port and Harbor Drive, which appears in the regulatory file review. However, during the site visit on April 27, 2017, Polychemie, Inc. was confirmed as being located on the northern adjacent property. Due to its cleanup completion and compliance status, as well as its downgradient location, the Polychemie, Inc. facility does not appear to represent a significant potential off-site source of contamination with respect to the *property* at this time.

Dak Americas Mississippi, Inc., located 73 feet north-northeast of the *property* at a lower elevation, is listed as a small quantity generator facility. No violations have been reported for this facility, therefore, it is not considered to represent a significant potential off-site source of contamination with respect to the *property* at this time.

Based on results of this assessment, no recognized environmental conditions were identified.

2.0 INTRODUCTION

2.1 *Property Location and Legal Description*

The *property* is located to the southeast of Port and Harbor Drive in Port Bienville Industrial Park, Pearlington, Mississippi. *Property* center coordinates are 30°14'21.38" North, 89°33'12.88" West. A topographic map and an aerial photograph of the *property* and adjoining areas are attached as Figures 1 and 2, respectively. A legal description of the *property* provided by the International Paper Company to Environmental Data Resources® (EDR®) is attached as Appendix A. Port and Harbor Drive to the northwest is the only adjoining public road.

2.2 Purpose of Phase I ESA

The Phase I ESA was performed in accordance with ASTM E1527-13 *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*. The purpose of the Phase I ESA is to identify recognized environmental conditions in connection with a property. ASTM E1527-13 defines recognized environmental condition as “the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.” The term is not intended to include *de minimis* conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.

2.3 Scope of Work

The scope of work includes the following tasks to be performed by Neel-Schaffer, the environmental professional:

- Review federal, state, and tribal government environmental records, waste disposal records, underground storage tank records, and hazardous waste handling, generation, treatment, disposal and spill records concerning contamination at or near the *property*.
- Review reasonably ascertainable historical records, such as aerial photographs, topographic maps, Sanborn® maps, and city directories to determine previous uses and occupancies of the *property* since first development, or back to 1940, whichever is earlier.
- Visually inspect the *property* and adjoining properties (as apparent from the *property*).
- Conduct interviews with local government officials for the purpose of gathering information regarding the potential for contamination at the *property*.
- Evaluation and report preparation.
- Review title and judicial records for environmental liens and activity and use limitations (AULs).

Tasks to be performed by the User include the following:

- Provide to the environmental professional any actual knowledge of environmental lien or AULs encumbering the *property* or in connection with the *property*.
- Provide to the environmental professional specialized knowledge or experience that is material to recognized environmental conditions in connection with the *property*.
- Provide to the environmental professional with a consideration of the relationship of the purchase price to the value of the *property*, if not contaminated.
- Provide to the environmental professional with commonly known or reasonably ascertainable information about the *property*.
- Provide to the environmental professional with any obvious indication pointing to the presence or likely presence of contamination at the *property*.
- Provide to the environmental professional with the reason why the Phase I ESA is being performed.

2.4 Limiting Conditions

Neel-Schaffer is not able to represent that the site or adjoining land contains no hazardous waste, oil, or other latent condition beyond that detected or observed during the assessment. The possibility exists for contaminants to migrate through surface water, air, or groundwater. The ability to address the environmental risk associated with transport in these media including, but not limited to, vapor intrusion, is beyond the scope of this investigation. No statement of scientific certainty can be made regarding latent subsurface conditions that may be the result of onsite or offsite sources. No environmental site assessment can wholly eliminate uncertainty regarding the potential for recognized environmental conditions in connection with a property. Performance of this practice is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with a property, and this practice recognizes reasonable limits of time and cost.

During the course of this assessment, we have relied on information obtained from interviews, third party research, and other entities. We did not conduct an independent verification of the accuracy of such information. The only warranty made by us in connection with the services provided is that we have used that degree of care and skill ordinarily exercised under similar conditions by reputable members of our profession practicing in the same or similar locality. No other warranty, expressed or implied, is made or intended.

This report has been prepared for exclusive use by the Hancock County Port and Harbor Commission, Mississippi Power, Coast Electric, other utility companies, future tenant prospects, and any other entity the HCPHC feels would benefit from this information for the Port Bienville Industrial Park – Site 6 *property*, Port Bienville Industrial Park, Pearlington, Mississippi, for the purposes of qualifying the aforementioned parties for defenses which may be available to that party under CERCLA. Reliance on this document by any other party is forbidden without the express written consent of Neel-Schaffer and that party's execution of a Neel-Schaffer Secondary

Client Agreement, which describes mutually acceptable terms and conditions for reliance on this document. Use of this report for purposes beyond those reasonably intended by above-mentioned party and Neel-Schaffer will be at the sole risk of the user.

2.5 Deviations

In our opinion a determination as to whether activity and use limitations (AULs) are considered readily available records constitutes an excessive time and cost burden, particularly where AULs may exist only in judicial records, at a local agency that has been delegated regulatory authority over environmental programs, and in project documentation that may be archived and access to the archives is limited. EDR® provided an environmental lien and AUL search of available current land title records, and none were found. This information is provided in Appendix A.

3.0 USER PROVIDED INFORMATION

Ms. Tiffany M. Aultman, Business Development Manager for the Hancock County Port and Harbor Commission, provided User information by completing a User Questionnaire and Disclosure Statement, attached as Appendix B.

3.1 Environmental Liens or Activity and Use Limitations

The EDR® Environmental Lien and AUL Search, provided in Appendix A, reported that a review of land title records did not identify environmental liens or activity and use limitations filed or reported against the *property*. Ms. Aultman indicated there were no environmental liens filed or recorded against the *property*.

3.2 Specialized Knowledge

Ms. Aultman did not indicate any specialized knowledge or experience related to the *property* or adjacent *properties*.

3.3 Commonly Known or Reasonably Ascertainable Information

Ms. Aultman was not aware of commonly known or reasonably ascertainable information in connection with the *property*.

3.4 Valuation Reduction for Environmental Issues

Ms. Aultman indicated the purchase price for the *property* does reasonably reflect the fair market value of the *property*.

3.5 Owner, Property Manager, and Occupant Information

Ms. Aultman reported the *property* owner as Hancock County Port and Harbor Commission, contact Mr. Beau Gex, key site manager, telephone number (228) 467-9231.

3.6 Previous Reports

Ms. Aultman was not aware of any previous reports in connection with the *property*.

3.7 Obvious Indicators of Contamination

Ms. Aultman was not aware of any contamination with respect to the *property*.

3.8 Reason for Performing the Phase I ESA

The Phase I ESA is being performed to obtain Project Ready Certification through the Mississippi Power Project Ready Program.

4.0 RECORDS REVIEW

4.1 Physical Setting Sources

The U.S. Geological Survey (USGS) 5604614 *English Lookout, LA* and 5637365 *Logtown, MS*, 7.5-Minute Series Quadrangle Maps, dated 2012, were reviewed for physical setting information. The referenced topographic maps are the most recent 7.5-minute quadrangle maps for the *property*. A site elevation of approximately eleven (11) feet above sea level (asl) was interpreted from the topographic maps. The topography in the vicinity is generally flat with a slight grade to the northwest. Mulatto Bayou (Port Bienville Industrial Canal) is located approximately 0.5 mile northwest of the *property*. Based on topography and proximity to Mulatto Bayou, a groundwater flow direction to the northwest can be inferred. There were no indications of water wells, surface mining or oil and gas operations located on the *property* on current or historic topographic maps.

4.2 Environmental Record Sources

A review of reasonably ascertainable environmental records for facilities in the vicinity of the *property* was performed on October 4, 2016, by EDR[®]. Documentation of databases reviewed, search radii, and results of the database review are provided in the EDR Radius Map[™] Report with Geocheck[®] attached as Appendix C. A summary of facilities appearing within the ASTM-specified radii is provided as Table 1.

Table 1: Mapped Facilities Within ASTM Search Radii

Facility Name	Environmental Record*	Distance and Direction from Property	Comment
Polychemie, Inc., 3080 Port and Harbor Drive, Bay St. Louis/Pearlington, Mississippi	ERNS, TSCA, RMP, ICIS, FINDS, ECHO	Listed as target <i>property</i>	Reported dimethylamine release into the soil on 4/25/2003 and cleanup is reported as complete; no other violations/accidents reported – site visit verified this facility is located approximately 310 feet north-northwest of <i>property</i>
Dak Americas Mississippi, Inc., 3303 Port and harbor Drive, Bay St. Louis, Mississippi	RCRA-SQG, US AIRS	73 feet north-northeast of <i>property</i>	No violations reported
Polychemie, Inc., Road D, Pearlington, Mississippi	RCRA-LQG	0.21-mile northwest of <i>property</i>	Exceeded air emissions standards – compliance achieved 6/3/2010
MAC, LLC, 13011 Road G, Bay St. Louis, Mississippi	RCRA-SQG	0.235-mile west-southwest of <i>property</i>	No reported violations
Halter Marine Port Bienville, 13151 Road E, Pearlington, Mississippi	SHWS	0.35-mile north-northwest of <i>property</i>	Reported TPH contamination in the soil – State NFA received 6/21/2004
GE Plastics, 3531 Port and Harbor Drive, Bay St. Louis, Mississippi	CORRACTS, RCRA-TSDF, RCRA-LQG, 2020 COR ACTION, TRIS	0.645-mile southwest of <i>property</i>	Reported groundwater contamination (2/1999) –NFA issued (11/7/2013); reported human exposure – under control as of 11/7/2013)

*Acronyms defined on page iv

4.3 Unmappable Sites

The EDR Radius Map™ Report with Geotcheck® identified four facilities that were not mapped due to poor or inadequate address information. These facilities were not observed on the *property* or adjoining land during the site reconnaissance.

4.4 Regulatory File Review *Property* and for Adjoining Property

The *property* is listed as Polychemie, Inc. at 3080 Port and Harbor Drive, which appears in the regulatory file review. However, during the site visit on April 27, 2017, Polychemie, Inc. was confirmed as being located on the northern adjacent property. A Mississippi Department of Environmental Quality (MDEQ) regulatory file review (included in Appendix D) was conducted for Polychemie, Inc. because it is the adjacent northern property. There was a reported release of dimethylamine into the soil in 2003, and cleanup is reported as complete. There was also a release

that exceeded permitted total suspended solids (TSS) into the water column in 2014, but the facility has come into compliance since that time and has no other reported violations since 2015. Due to its cleanup completion and compliance status, as well as its downgradient location, this facility does not appear to represent a significant potential off-site source of contamination with respect to the *property* at this time.

Dak Americas Mississippi, Inc., located 73 feet north-northeast of the *property* at a lower elevation, is listed as a small quantity generator facility. No violations have been reported for this facility, therefore, it is not considered to represent a significant potential off-site source of contamination with respect to the *property* at this time. The Environmental Protection Agency (EPA) Facility Registry Service (FRS) facility report is included in Appendix D.

4.5 Vapor Encroachment Screen

A vapor encroachment screen (VES) was performed in accordance with ASTM E2600-10 *Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions*. The goal of conducting a VES is to identify a vapor encroachment condition (VEC), which is the presence or likely presence of chemicals of concern (COC) vapors in the subsurface of the target *property* caused by the release of vapors from contaminated soil or groundwater or both on or near the target *property*. A Tier 1 initial screen of facilities appearing in environmental records (see Appendix C) was performed using an area of concern (AOC) of 1/3-mile for COC and an AOC of 1/10-mile for petroleum hydrocarbon COC. Based on expected groundwater flow direction to the northwest, the AOC was reduced to 1,760 feet in the upgradient direction, 365 feet in the cross-gradient directions¹, and 100 feet in the downgradient direction.

For petroleum-contaminated sites, the AOC was further reduced to:

- Upgradient direction: 528 feet;
- Downgradient direction, floating free product: 100 feet;
- Downgradient direction, only dissolved contamination in groundwater: 30 feet;
- Cross-gradient direction¹, floating free product: 165 feet; and
- Cross-gradient direction¹, only dissolved contamination in groundwater: 95 feet.

Based on information provided in Appendix C and our site visit. There was one facility located within the AOC:

- Dak Americas Mississippi, Inc. is located 73 feet north-northeast of the *property* at a lower elevation. This facility has no reported violations, therefore, it is not considered to represent a significant potential off-site source of contamination with respect to the *property* at this time.

¹ Bounicore, A.J., *Methodology for Identifying the Area of Concern Around a Property Potentially Impacted by Vapor Migration from Nearby Contaminated Sources*, Paper No. 2011-A-A-301, Proceedings, Air & Waste Management Association, 104th Annual Meeting, Orlando, Florida, June 20-24, 2011.

- Polychemie, Inc. is listed being on the target *property*, but the site visit on April 27, 2017 confirmed it is located to the north, approximately 310 feet north-northwest from the *property* at a lower elevation. This site had a reported dimethylamine contamination into the soil in 2003, and cleanup is reported as complete. No other violations were reported. Based on its distance, downgradient location, and cleanup status, this facility is not considered to represent a potential off-site source of contamination with respect to the *property* at this time.

4.6 Standard Historical Sources

The following standard historical sources were reviewed and are attached in Appendix E:

- USGS topographic maps dated 1893, 1935, 1936, 1954, 1956, 1957, 1958, 1959, 1968, 1969, 1970, 1976, 1994, 1996, and 2012;
- Aerial photographs dated 1967, 1973, 1975, 1985, 1989, 1996, 1998, 2005, 2006, 2007, 2009, 2010, and 2012;
- Polk's City Directories dated 1964, 1968, 1974, 1978, 1982, 1986, and 1991, and Cole Information Services directories dated 1995, 1999, 2003, 2008, and 2013;
- Fire insurance maps, Certified Sanborn® Report no coverage certification;
- EDR® Building Permit Report data gap documentation;
- EDR® Property Tax Map Report no coverage certification; and
- EDR® Environmental Lien and AUL search included in Appendix A.

The *property* address is listed as 3080 Port and Harbor Drive on Google Maps®, but during the site visit on April 27, 2017, this address was verified as belonging to the northwestern adjacent property, Polychemie, Inc. The user questionnaire reports the *property* address as 13011 Port and Harbor Drive. City directories list this address as Anderson Company and Port Bienville Railroad in 2013, but no other listings appear for 13011 Port and Harbor Drive. Topographic maps dating 1893 through 1956 show the *property* as undeveloped. The 1957 topographic map depicts one access road crossing the eastern portion of the *property*, and the 1967 aerial photograph and 1968 topographic map show three access roads located on the *property*. The 1973 through 1996 aerial photographs and 1976 through 1996 topographic maps depict a roadway constructed along the *property's* northern boundary. From 1998 through 2012, aerial photographs show vegetation in the central portion of the *property* is cleared from 2005 to 2016. Based on the aforementioned historical document and the *property* owner interview, the *property* appears to be undeveloped, with the exception of some clearing and a few access roads, from 1893 until present.

4.7 Adjoining Properties Historical Use Information

The historical sources cited in Section 4.3 were used to investigate adjoining properties historical use information. Adjoining *property* historical usage can be described as follows:

- North – Undeveloped from 1893 until a road and railroad were constructed between 1969 and 1973, a water tank and a building were constructed between 1973 and 1976, and several more buildings were constructed on the property between 1998 and 2005. City Directories list this property as GSD Logistics, LLC and Polychemie, Inc. from 2008 to 2013;
- South – Undeveloped, apart from three unimproved roads, from 1893 to present;
- East – Undeveloped from 1893 until a building was constructed between 1976 and 1985. There are no city directory listings for this property; and
- West – Undeveloped from 1893 until a small building was constructed between 1985 and 1989. 2013 city directories list this property as Southcoast Electric Systems, LLC.

4.8 Environmental Liens and Activity and Use Limitations

Records reviewed included a title search performed by EDR[®]. There were no listings for liens, engineering controls, or institutional controls in connection with the *property*.

5.0 SITE RECONNAISSANCE

5.1 Methodology and Limiting Conditions

A site reconnaissance was performed by Ms. Cori L. Gavin, Environmental Scientist, Neel-Schaffer Project Manager on April 27, 2017. Photographs of the *property* are attached as Appendix F. The reconnaissance was performed by walking the perimeter of the *property* and several transects across the *property*.

5.2 General Site Setting

At the time of our site visit, the approximate 50-acre *property* was undeveloped land with pine-dominated forest on most of its northern and southern portions. A cleared portion that appeared routinely mowed existed on the middle portion of the *property*. Four unimproved access/egress roads existed along the *property's* northern, middle, and southern sections. A stockpile of crushed limestone was observed along the *property's* northeastern boundary. Power poles with transformers were observed on the *property's* northwestern border. No leaks, staining, or distressed vegetation were observed on or around the transformers and the poles they were installed on.

Adjoining property usage was observed as follows:

- North – railroad and otherwise undeveloped land;
- South – undeveloped land;
- East – railroad and otherwise undeveloped land; and
- West – Port and Harbor Drive, across from which was a water tower and Polychemie Corporation.

5.3 Summary of Observations

A summary of observations for the *property* is presented in Table 2.

Table 2: Summary of Site Reconnaissance Observations for the *Property*

Item	Observed on <i>Property</i>
Hazardous Substances and Petroleum Products	No
Hazardous Substances and Petroleum Products Containers	No
Unidentified Substance Containers	No
Potential PCB-Containing Equipment	Yes – transformers on power poles
Storage Tanks	No
Odors	No
Pools of Liquids	No
Drums	No
Stains or Corrosion	No
Drains and Sumps	No
Pits, Ponds, or Lagoons	No
Stained Soil or Pavement	No
Stressed Vegetation	No
Solid Waste	No
Waste Water	No
Wells	No
Septic Systems	No

6.0 INTERVIEWS

The interviews were conducted by Ms. Cori L. Gavin. Summaries of the interviews are presented in the following sections.

6.1 Interview with *Property Owner* and Key Site Manager

The property is owned by HCPHC, and Ms. Tiffany Aultman, Business Development Director, was identified as the property owner representative and point of contact. Ms. Aultman provided interview information by completing the user questionnaire attached in Appendix A.

6.2 Interview with Local Fire Department

West Hancock County Fire Department was contacted several times via telephone between May 19 and May 30, 2017, requesting information regarding any reports of chemical releases or spills on the *property*. To date, no representative has responded to our requests for information.

7.0 EVALUATION

7.1 Findings

During the course of the Phase I ESA, no conditions were found indicative of the presence or likely presence of any hazardous substances or petroleum products in, on, or at the *property*: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.

7.2 Opinions

It is our opinion that the facilities appearing the review of environmental records are not recognized environmental conditions in connection with the *property*. This opinion is based on their distances from the *property* and reported cleanup completion.

7.3 Conclusions

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 of Port Bienville Industrial Park – Site 6 *property*, Pearlington, Mississippi. Any exceptions to, or deletions from, this practice are described in Section 2.5 and Section 7.4 of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the *property*.

7.4 Data Gaps

Historical records at 5-year intervals dating back to 1940 were not reasonably ascertainable. This data gap did not affect our ability to identify recognized environmental conditions.

7.5 Environmental Professional Statement and Signature

I declare that, to the best of my professional knowledge and belief, I meet the definition of *Environmental Professional* as defined in §312.10 of 40 CFR §312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject *property*. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312. Qualifications of the undersigned environmental professional are presented in Section 7.6.

EDR Environmental Lien and AUL Search

The EDR Environmental LienSearch Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

DEED EXHIBIT A

STATE OF MISSISSIPPI
COUNTY OF HANCOCK

WARRANTY DEED

BOOK T-3 PAGE 203

FOR AND IN CONSIDERATION of the price and sum of TEN AND NO/100 DOLLARS (\$10.00), cash in hand paid and other good and valuable considerations, the receipt of all of which is hereby acknowledged, the undersigned, INTERNATIONAL PAPER COMPANY, a New York Corporation, does hereby sell, convey and warrant, subject to the exceptions and reservations herein-after set forth, unto HANCOCK COUNTY, MISSISSIPPI, the following lands situated in Hancock County, Mississippi, and more particularly described as follows, to-wit:

The land described in Exhibit "A" attached hereto and initialed for identification "IPCo. by P.C.G.". All of the lands herein conveyed aggregate 2,052.08 acres, more or less.

This conveyance is made subject to each and all of the following:

(1.) The warranty of the Grantor herein provided shall in no event render the Grantor liable for anything more than the purchase money received by the Grantor from the Grantee with respect to each particular tract or portion of the land, title to which shall fail, based upon the price of One Hundred Fifty Dollars (\$150.00) per acre, and in no event shall the liability of the Grantor for said warranty with respect to the land, title to which shall fail, exceed the extent to which the title to such particular land may fail.

(2.) The Grantor herein reserves unto itself all of its present interests and all of its reversionary interests in all, oil, gas and other hydrocarbon minerals, on, in or under the lands conveyed herein, together with the privilege of

P.C.G.

F-3-204

exploring for, developing and removing same. Provided, however, that except as to the land designated in Exhibit "B" attached hereto, and initialed for identification, "IPCo by F.C.G.", being Drill Sites A through D as to all right, title and interest of the Grantor including reversionary interests in and to said oil, gas and other hydrocarbon minerals on, in or under the lands conveyed herein, the Grantor does hereby covenant and agree with the Grantee, its successors and assigns, that the Grantor, its successors and assigns, shall have no right of entry on the lands described in Exhibit "A" except those parcels of land described in Exhibit "B" for any purpose other than timber removal as hereinbelow provided in Paragraph 5, and that the Grantor, its successors and assigns, shall have no surface rights in and to said land except as to those parcels described in Exhibit "B" and for timber removal as hereinafter provided, and that the Grantor, its successors and assigns, will not conduct any drilling, exploring or other operations of any nature whatsoever, (the term "other operations" as used hereinabove including but without limitation on or derogation from the generality thereof, operations in any manner incidental to the taking, saving, treating, storing, producing and/or marketing of said minerals) and the right of the Grantor, its successors and assigns, to explore for and to develop said oil, gas and other hydrocarbon minerals shall be limited to directional drilling to or through the subsurface beneath the lands conveyed, as described in Exhibit "A", or to other operations conducted outside the boundaries of the lands described in Exhibit "A", and conducted only in such a way as to cause no interference with, interruption of, or damage to operations of the Grantee, its successors and assigns, or damage to the surface of the lands conveyed herein, and as described in Exhibit "A", including improvements placed

J.C.G.

W. F. S. 1000

thereon, except that drilling operations shall be permitted on the parcels designated in Exhibit "B". The covenants and agreements herein contained, with respect thereto, shall be a covenant running with the mineral interests of the Grantor, its successors and assigns. It is understood that the Grantee herein contemplates the development of the lands herein conveyed by the Hancock County Port and Harbor Commission for harbor and industrial purposes, and that in the over-all development of said lands by said public entity, there will be provided an access right-of-way three hundred feet (300') wide extending along the Southeastern side of the lands herein conveyed, and that said access right-of-way will be devoted to railroads, utilities, and vehicular traffic, and that the Northern and/or Western margin of said right-of-way, as shown on plat attached hereto, is contiguous with Drill Sites A, B, C, and D, and that access to said Drill Sites will be afforded to the Grantor herein, its future lessees and assigns, without charge, and that in the event said right-of-way is not provided and installed in the location designated on said plat attached hereto and marked for identification as Exhibit "B", that the Grantor will be afforded without charge access to said Drill Sites by the most direct route, without charge of remuneration. The term "access" as used in this paragraph shall be construed as including the right of ingress and egress, the right to construct electric power transmission lines and to install gas and oil transmission lines for exploration of and removal of any and all oil, gas and other hydrocarbon minerals produced from said lands conveyed herein. It being distinctly understood between the Grantor and Grantee herein that the covenants on the part of the Grantor herein under this paragraph shall in no way be construed as an attempt on the part

of the Grantor or the Grantee herein to restrict, limit or otherwise curtail the rights of any other holder of mineral interests in said lands, or any Lessee under any oil, gas and mineral lease presently in effect on said lands. All prior reservations and conveyances of oil, gas and other minerals, including oil, gas and other mineral leases, if any, of record and now affecting any part or parts of the lands herein conveyed are excepted from this conveyance.

(5.) The Grantor herein reserves unto itself and its successors and/or assigns, all merchantable timber, including pulpwood presently existing on the hereinabove referred to lands, except live oak, and magnolia trees, together with the right to remove same for a period of four (4) years from the date hereof, same to be removed in accordance with that certain letter agreement executed by the parties hereto dated August 18, 1966, made a part hereof by reference, the same as though fully copied and incorporated herein. It is understood and agreed that approximately one-fourth (1/4) of such timber is in the process of removal and has been heretofore designated for removal, and that on the anniversary date of this Deed in 1968, the Grantee shall designate the second one-fourth (1/4) of the timber to be removed, which shall be removed by the Grantor during the ensuing year, and on the anniversary date of this Deed during the year 1969, the Grantee shall designate the third one-fourth (1/4) of the timber to be removed, which shall be removed by the Grantor during the ensuing year, and on the anniversary date of this Deed during the year 1970, the Grantee shall designate the remainder of the timber to be removed, which shall be removed by the Grantor during the ensuing year, thereby completing the removal of such timber on or before the anniversary date of

7-3-2011

this Deed in 1971. Provided, however, that in the event of a necessity for an early removal of the reserved timber, as determined and designated by the Hancock County Port and Harbor Commission, the Grantor shall use every reasonable effort to remove same during a period not to exceed one hundred twenty (120) calendar days per one hundred (100) acres or fraction thereof from the date of notice and designation, failing in which Grantor shall forfeit its right of removal as to such portion not removed. Provided, however, in the event more than one hundred (100) acres are requested for early removal, the one hundred twenty (120) day periods for removal thereof shall run consecutively from date of notice. It is understood that the Grantor, when prevented from removing said timber by inclement weather conditions, strikes or other conditions beyond its control, shall present said facts to the Grantee herein and its Consulting Engineers, Michael Baker, Jr., Inc., or its successors, and Grantor shall receive such credit as said Engineers shall allow and determine because thereof. The operation of this early removal clause shall in no way impair or operate to shorten the over-all scheme of timber removal in accordance with said agreement dated August 18, 1966; and each day utilized by the Grantor or its assigns in complying with requests for early removal of timber by the Grantee, or its authorized agent, Hancock County Port and Harbor Commission, shall be added to the remaining over-all period of timber removal, so as to extend same beyond the anniversary date of this Deed in 1971, insofar as the number of acres designated for early removal is concerned. The Grantor herein covenants that in cutting and removing the merchantable timber herein reserved from the hereinabove referred to lands, that it will cut and remove all such reserved timber from any portion, tract or tracts of said land only one (1) time, and when such removal is complete, or forfeited, it will upon request from the Grantee execute and deliver a recordable release of this timber removal reservation from such portion or portions so cut and removed or forfeited.

7-13 Inc 1967

(4.) All existing easements and rights-of-way now in actual use or of record and to which reversion has not transpired.

(5.) All existing leases of whatsoever kind and nature affecting the lands hereby conveyed.

(6.) Ad valorem taxes for the year 1967 shall be assumed and paid by the Grantee herein.

(7.) Any notices required herein shall be sent by United States mail, postage pre-paid to the following:

My Commission Expires on 12-31-1970

INTERNATIONAL PAPER COMPANY
220 EAST 42ND STREET
NEW YORK 17, N. Y.

EX-103-300

At a meeting held November 9, 1966 the following action
was taken by the Board of Directors:

RESOLVED that this Board hereby approves and authorizes the sale to the Hancock County Board of Supervisors and/or the Hancock County Port and Harbor Commission of Hancock County, Mississippi, in lieu of condemnation, of approximately 2,000 acres of the Company's lands in Hancock County, Mississippi, for a consideration of \$150 per acre; and further

RESOLVE that the President or any Vice President or each of them is hereby authorized in the name and on behalf of the Company to make, execute and deliver any and all conveyances or other instruments and to receive any and all payments necessary to carry out the sale authorized by the preceding resolution.

I, the under-signed, John E. Shinnery, being an assistant secretary of International Paper Company, a New York Corporation, do hereby certify that the above and foregoing Resolution is a true and correct copy of Resolution passed on November 9, 1966 by the Board of Directors of International Paper Company.

Assistant Secretary

All of the following described land, herein designated as Parcels Nos. 1, 2, 3, 4, 5, 6, 7, and 8, located in Hancock County, Mississippi, and being portions of the land transferred to International Paper Company by Warrants, No. 1 dated December 30, 1947 from Lester P. Alexander and recorded in Book 110, Page 146 of the Chancery Court of Hancock County, Mississippi and described as follows:

PARCEL NO. 1

A tract of land containing 12.55.09 acres, more or less, designated as Parcel No. 1 on the attached "Plan of Land Owned by International Paper Company", as prepared by Michael Baker, Jr., Inc., Consulting Engineers, Jackson, Mississippi and dated August, 1960, and being described as follows:

Beginning at the Northwest corner of Section 30, T-9-S, R-16-W (Coordinates N 208,562.41, E 275,283.04) and extending West (S 90° 00' 00" W) a distance of 2,275.00 feet to a point (Coordinates N 208,562.41, E 275,008.04); thence S 41° 15' 15" W, a distance of 10,825.57 feet to a point; (Coordinates N 200,810.00, E 265,185.00); thence S 15° 40' 17" E, a distance of 5,046.81 feet to a point (Coordinates N 197,850.00, E 260,175.00); thence West (S 90° 00' 00" W) a distance of 3,050 feet to a point (Coordinates N 197,850.00; E 263,125.00) located on the left (east) bank of Malatto Bayou at the level of ordinary high tide; thence meandering in a Northerly direction along the left (east) bank of Malatto Bayou a distance of approximately 5,972.00 feet to a point, (Coordinates N 203,780.00, E 261,580.00) located on the left (east) bank of Malatto Bayou at the level of ordinary high tide and on the South edge of Lot No. 4, Section 27, T-9-S, R-16-W, the apparent owner of Lot No. 4 being E. G. Kelly; thence S 87° 44' 22" E along the South edge of Lots 4 and 5, Section 27, T-9-S, R-16-W, being a common boundary of apparent

Page 7-3 of 302

owners E. C. Kelly and International Paper Company, a distance of 760.59 feet to the Western most point (Coordinates N 203,350.00, E 262,140.00) of the Boisdre Claim; thence N 38° 18' 58" E along the Northwestern edge of the Boisdre Claim being a common boundary of apparent owners E. C. Kelly and International Paper Company, a distance of 1,632.58 feet to a point (Coordinates N 204,670.16, E 263,183.20) at the intersection of the East Side of Lot No. 5, Section 27, T-9-S, R-16-W and the Northwestern edge of the Boisdre Claim; thence N 00° 39' 14" E along the East edge of Lot 2 and Lot 5 of Section 27, T-9-S, R-16-W, being a common boundary of apparent owners E. C. Kelly and International Paper Company, a distance of 1,909.96 feet to a point (Coordinates N 206,580.00, E 263,205.00) located on the left (Southeast) bank of Mulatto Bayou at the level of ordinary high tide; thence meandering in a Northeasterly direction along the left (Southeast) bank of Mulatto Bayou at the level of ordinary high tide, a distance of approximately 13,052.00 feet to a point (Coordinates N 214,059.74, E 272,209.29), lying on the South line of Section 13, T-9-S, R-16-W on the left (Southeast) bank of Mulatto Bayou at the level of ordinary high tide; thence S 87° 23' 38" E, a distance of 1,695.00 feet to the North West corner of the North East One Quarter (NE-1/4) of the North East One Quarter (NE-1/4) of Section 24, T-9-S, R-16-W, (Coordinates N 213,987.20, E 274,002.75); thence S 00° 41' 16" W along the apparent West side of the East One-Half (E-1/2) of the North East One Quarter (NE-1/4) and along the apparent West Side of the North East One Quarter (NE-1/4) of the South East One Quarter (SE-1/4) being a common boundary of International Paper Company and Mrs. A. F. Thian a distance of 4,020.85 feet to the apparent North West corner of the South East One Quarter (SE-1/4) of the South East One Quarter (SE-1/4) of Section 24, T-9-S, R-16-W (Coordinates N 209,966.64, E 273,954.29); thence S 87° 15' 32" E along the apparent North Side of the South East One Quarter (SE-1/4) of the South East One Quarter (SE-1/4) of Section 24, T-9-S, R-16-W, being a common boundary of International Paper Company and Mrs. A. F. Thian, a distance of 1,339.13 feet to the apparent North East corner of the South East One Quarter (SE-1/4) of the South East One Quarter (SE-1/4) of Section 24, T-9-S, R-16-W, (Coordinates N 209,902.60 E 275,291.89); thence S 89° 11' 49" E, a distance of 744.30 feet to a point on the West right-of-way line of Ansley Road (Coordinates N 209,892.17, E 276,036.12); thence S 29° 08' 00" E, a distance of 233.63 feet along said right-of-way line to a point (Coordinates N 209,688.09, E 276,149.85); thence S 83° 39' 14" W, a distance of 865.90 feet to a point lying on the West side of Section 19, T-9-S, R-16-W (Coordinates N 209,592.39, E 275,289.26); thence S 00° 20' 45" W, a distance of 1,029.97 feet along

BOOK T-3 PAGE 303

The West line of Section 19, T-9-S, R-15-W to the Northwest corner of Section 30, T-9-S, R-15-W (Coordinates N 208,562.44, E 275,283.04) being the true point of beginning.

The tract of land hereinabove described includes the following:

All of Section 24, T-9-S, R-16-W that lies Southerly and Easterly of the left (Southeast) bank of Mulatto Bayou except the East One-Half (E-1/2) of the Northeast One Quarter (NE-1/4) and the Northeast One Quarter (NE-1/4) of the Southeast One Quarter (SE-1/4):

All of Section 23, T-9-S, R-16-W, that lies Southerly and Easterly of the left (Southeast) bank of Mulatto Bayou:

All of partial Section 26, and Lot 7 of the Boisdore Claim which would normally be in Section 26, T-9-S, R-16-W except that portion of partial Section 26 lying Northerly and Westerly of the right (Northwest) bank of Mulatto Bayou and a portion of Lot No. 6;

Portions of Lots 2, 3, 4, and 5 of partial Section 25, T-9-S, R-16-W;

Portions of Lot No. 1 lying Southerly and Easterly of the left (East) bank of Mulatto Bayou and all of Lot No. 4 in Section 27 and Lot No. 7, Lot No. 7 being a portion of the Boisdore Claim which would normally be in Section 27, T-9-S, R-16-W;

Portions of Lots, 2, 3, 6, 7, and 8 lying Easterly of the left bank of Mulatto Bayou, and a portion of Lot No. 1 of the Boisdore Claim, Section 34, T-9-S, R-16-W;

A portion of Lot No. 1 of the Boisdore Claim which would normally be Section 35, T-9-S, R-16-W;

A strip of land varying in width, extending in an Easterly-Westerly direction across Section 19, T-9-S, R-15-W, being 307.95 feet wide at the Westerly side, extending from the Westerly edge of Section 19 to the Westerly right-of-way line of Ansley Road, decreasing in width to 233.63 feet along the Ansley Road right-of-way line.

All Coordinates are plane coordinates. Transverse Mercator Projection for the State of Mississippi. East Zone. All bearings refer to Grid North, Transverse Mercator Projection for the State of Mississippi, East Zone.

References to left or right banks of Mulatto Bayou are determined by the examiner or viewer always facing downstream.

BOOK 7-3 PAGE 307

A tract of land containing 4.19 acres, more or less, located in Section 24, T-9-S, R-16-W, Hancock County, Mississippi being designated as Parcel No. 3 on the attached "Plot of Land Owned by International Paper Company", as prepared by Michael Baker, Jr., Inc., Consulting Engineers, Jackson, Mississippi, and dated August 1966 and being described as follows:

Beginning at a point (Coordinates N 213,167.31, E 271,314.31) located at the level of ordinary high tide on the right (Northwest) bank of Mulatto Bayou S 52° 26' 15" E and at a distance of 1,634.55 feet from the Northwest corner of Section 24, T-9-S, R-16-W, (Coordinates N 214,163.78, E 270,018.62) and extending S 45° 45' 50" W, a distance of 1,733.00 feet to a point, (Coordinates N 211,958.34, E 270,072.67) located at the level of ordinary high tide on the right (Northwest) bank of Mulatto Bayou; thence meandering in a Northeasterly direction a distance of approximately 1,900.00 feet along the right (Northwest) bank of Mulatto Bayou at the level of ordinary high tide to the true point of beginning.

All Coordinates are plane coordinates, Transverse Mercator Projection for the State of Mississippi, East Zone. All bearings refer to Grid North, Transverse Mercator Projection for the State of Mississippi, East Zone.

Reference to right bank of Mulatto Bayou is determined by the examiner or viewer always facing downstream.

PARCEL NO. 4

HCCA 7-3 PAGE 309

A tract of land containing 3.12 acres, more or less, located in Section 23, T-9-S, R-16-W, Hancock County, Mississippi, being designated as Parcel No. 4 on the attached "Plat of Land Owned by International Paper Company", prepared by Michael Baker, Jr., Inc., Consulting Engineers, Jackson, Mississippi and dated August 1966, and being described as follows:

Beginning at a point (Coordinates N 211,909.50, E 270,022.52), located at the level of ordinary high tide on the right (Northwest) bank of Mulatto Bayou, S 00° 05' 57" E, and at a distance of 2,254.28 feet from the Northwest corner of Section 24, T-9-S, R-16-W, extending S 45° 45' 50" W, a distance of 1,191.00 feet to a point, (Coordinates N 211,086.32, E 269,177.08) located at the level of ordinary high tide on the right (Northwest) bank of Mulatto Bayou; thence meandering in a Northeasterly direction, a distance of approximately 1,335.00 feet along the right (Northwest) bank of Mulatto Bayou at the level of ordinary high tide to the true point of beginning.

All Coordinates are plane coordinates, Transverse Mercator Projection for the State of Mississippi, East Zone. All bearings refer to Grid North, Transverse Mercator Projection for the State of Mississippi, East Zone.

Reference to right bank of Mulatto Bayou is determined by the examiner or viewer always facing downstream.

BOOK 7-3 PAGE 311

A tract of land containing 10.28 acres, more or less, located in Section 34, T-9-S, R-16-W, Hancock County, Mississippi, being designated as Parcel No. 5 on the attached "Plat of Land Owned by International Paper Company", as prepared by Michael Baker, Jr., Inc., Consulting Engineers, Jackson, Mississippi and dated August 1966, and being described as follows:

Beginning at a point at the level of ordinary high tide on the right (West) bank of Mulatto Bayou (Coordinates N 199,210.24, E 262,266.81) located N 59° 48' 57" W, and at a distance of 4,601.53 feet from the United States Coast and Geodetic Survey Marker "HAAS", (Coordinates N 196,896.67, E 266,244.44), at Jackson Landing on Mulatto Bayou; extending and meandering along the right (West) bank of Mulatto Bayou at the level of ordinary high tide a distance of approximately 3,880.00 feet to a point (Coordinates N 202,871.08, E 261,387.33) on the right bank of Mulatto Bayou at the level of ordinary high tide; thence S 13° 30' 32" E, a distance of 3,765.00 feet to the true point of beginning.

The tract of land hereinabove described is situated in portions of Lots 2, 3, 6, and 7 of Section 34, T-9-S, R-16-W, lying West of Mulatto Bayou.

All Coordinates are plane coordinates, Transverse Mercator Projection for the State of Mississippi, East Zone. All bearings refer to Grid North, Transverse Mercator Projection for the State of Mississippi, East Zone.

Reference to right bank of Mulatto Bayou is determined by the examiner or viewer always facing downstream.

BOOK *T-3* *plat 343*

A Right-of-Way, 300 feet in width, located in Section 13, T-9-S, R-16-W, and Sections 18 and 19, T-9-S, R-15-W, Hancock County, Mississippi, less and except that part of the established right-of-way for Ansley Road, Federal Aid Secondary Project No. S-1106(2) B which lies within aforesaid right-of-way and less and except a strip of land located along the East line of the Northwest One-Quarter (NW-1/4) of the Northwest One-Quarter (NW-1/4) of Section 19, T-9-S, R-15-W, containing 79.27 acres, more or less, being designated as Parcel No. 6 on the attached "Plat of Land Owned by International Paper Company for Access Road--West Hancock County Harbor and Industrial Development", as prepared by Michael Baker, Jr., Inc., Consulting Engineers, Jackson, Mississippi and dated October 1966, and being described as follows:

Beginning at a point (Coordinates N 219,224.26, E 270,713.62) located S 00° 09' 00" West 109.60 feet and S 80° 51' 00" East 684.64 feet from the Northwest Corner of Section 13, T-9-S, R-16-W (Coordinates N 219,442.73, E 270,037.98), said point of beginning being the intersection of the South right-of-way line of U. S. Highway No. 90 with the centerline of Ansley Road, Federal Aid Secondary Project No. S-1106 (2) B, thence

With the South right-of-way line of U. S. Highway No. 90 N 55° 54' 00" East 346.62 feet to a point (Coordinates N 219,418.59, E 271,000.64), thence leaving U. S. Highway No. 90 right-of-way line, S 80° 51' 00" East 1872.85 feet to the P.C. of a 2° 40' 06" curve to the right (Coordinates N 219,120.77, E 272,849.68), thence with said curve 662.12 feet to the P.T. of said curve (Coordinates N 218,917.14, E 273,477.02), thence S 63° 11' 00" East 4207.59 feet to the P.C. of a 4° 48' 18" curve to the right (Coordinates N 217,018.93, E 277,232.08), thence with said curve 1709.69 feet to the P.T. of said curve (Coordinates N 215,566.64, E 277,822.04), thence South 18° 58' 00" West 502.45 feet to the P.C. of a 2° 40' 06" curve to the right (Coordinates N 215,091.46, E 277,658.73), thence with said curve 449.12 feet to the P.T. of said curve (Coordinates N 214,685.00, E 277,469.55), thence S 30° 57' 00" West 859.14 feet to the P.C. of a 4° 12' 21" curve to the left

BOOK 7-3 PAGE 314

(Coordinates N 213,948.18, E 277,027.71), thence with said curve 560.63 feet to the P.T. of said curve (Coordinates N 213,422.28, E 276,844.97), thence S 07° 22' 17" West 2803.36 feet to the P.C. of a 4° 48' 18" curve to the right (Coordinates N 210,642.03, E 276,485.70), thence with said curve 841.23 feet to the intersection of said curve with the East right-of-way line of Ansley Road (Coordinates N 209,911.69, E 276,105.50), thence with said right-of-way line N 29° 08' 00" West 310.83 feet to a point (Coordinates N 210,183.20, E 275,954.18), thence leaving said right-of-way line with a 6° 25' 13" curve to the left 559.19 feet to the P.T. of said curve (Coordinates N 210,680.52, E 276,188.18), thence N 07° 22' 17" East 1901.28 feet to a point (Coordinates N 212,566.09, E 276,432.11), thence S 89° 08' 26" East 186.88 feet along a common boundary of International Paper Company and Mrs. A. F. Thian, apparent owners, to a point (Coordinates N 212,563.28, E 276,618.98), thence N 00° 22' 41" East 1233.60 feet along a common boundary of International Paper Company and Mrs. A. F. Thian, apparent owners, to a point (Coordinates N 213,796.85, E 276,627.11), thence with a 3° 26' 48" curve to the right 338.07 feet to the P.T. of said curve (Coordinates N 214,102.47, E 276,770.42), thence N 30° 57' 00" East 859.14 feet to the P.C. of a 3° 06' 05" curve to the left (Coordinates N 214,839.29, E 277,212.27), thence with said curve 386.37 feet to the P.T. of said curve (Coordinates N 215,188.97, E 277,375.02), thence N 18° 58' 00" East 502.45 feet to the P.C. of a 6° 25' 13" curve to the left (Coordinates N 215,664.14, E 277,538.32), thence with said curve 1279.55 feet to the P.T. of said curve (Coordinates N 216,751.19, E 277,096.74), thence N 63° 11' 00" West 4207.59 feet to the P.C. of a 3° 06' 05" curve to the left (Coordinates N 218,649.40, E 273,341.68), thence with said curve 569.62 feet to the P.T. of said curve (Coordinates N 218,824.59, E 272,801.98), thence N 80° 51' 00" West 2191.74 feet to the intersection with the South right-of-way line of U. S. Highway No. 90 (Coordinates N 219,173.12, E 270,638.08), thence with said right-of-way N 55° 54' 00" East 91.22 feet to the true point of beginning (Coordinates N 219,224.26, E 270,713.62), containing 96.23 acres, more or less;

LESS AND EXCEPT a right-of-way, 70 feet in width, enclosed in the above described property, said excepted right-of-way being the Ansley Road, Federal Aid Secondary Project No. S-1106 (2) B right-of-way containing 16.93 acres, more or less, and being more particularly described as follows:

Beginning at a point (Coordinates N 219,224.26, E 270,713.62) located S 00° 09' 00" West 109.60 feet and S 80° 51' 00" East 684.64 feet from the Northwest Corner of Section 13 (Coordinates N 219,442.73, E 270,037.98), said point of beginning being the intersection of the South right-of-way line of U. S. Highway No. 90 with the centerline of Ansley Road, Federal Aid Secondary Project No. S-1106 (2) B, thence

BOOK F 3 315

With the South right-of-way line of U. S. Highway No. 90 N 55° 54' 00" East 51.08 feet to a point (Coordinates N 219,252.90, E 270,755.92), thence leaving U. S. Highway No. 90 right-of-way S 80° 51' 00" East 2088.17 feet to the P.C. of a 2° 56' 46" curve to the right (Coordinates N 218,920.84, E 272,817.49), thence with said curve 599.68 feet to the P.T. of said curve (Coordinates N 218,736.42, E 273,385.67), thence S 63° 11' 00" East 4207.59 feet to the P.C. of a 5° 47' 16" curve to the right (Coordinates N 216,838.21, E 277,140.72), thence with said curve 1419.35 feet to the P.T. of said curve (Coordinates N 215,632.45, E 277,630.53), thence S 18° 58' 00" West 502.45 feet to the P.C. of a 2° 56' 46" curve to the right (Coordinates N 215,157.28, E 277,467.23), thence with said curve 406.76 feet to the P.T. of said curve (Coordinates N 214,789.14, E 277,295.89), thence S 30° 57' 00" West 859.14 feet to the P.C. of a 3° 03' 22" curve to the left (Coordinates N 214,052.32, E 276,854.04), thence with said curve 635.53 feet to a point on said curve (Coordinates N 213,462.79, E 276,624.91), thence N 00° 22' 41" East 268.94 feet to a point on a 2° 56' 46" curve to the right (Coordinates N 213,731.72, E 276,626.68), thence with said curve 394.59 feet to the P.T. of said curve (Coordinates N 214,088.32, E 276,794.01), thence N 30° 57' 00" East 859.14 feet to the P.C. of a 3° 03' 22" curve to the left (Coordinates N 214,825.14, E 277,235.86), thence with said curve 392.12 feet to the P.T. of said curve (Coordinates N 215,180.03, E 277,401.03), thence N 18° 58' 00" East 502.45 feet to the P.C. of a 6° 13' 42" curve to the left (Coordinates N 215,655.20, E 277,564.33), thence with said curve 1318.98 feet to the P.T. of said curve (Coordinates N 216,775.73, E 277,109.14), thence N 63° 11' 00" West 4207.59 feet to the P.C. of a 3° 03' 22" curve to the left (Coordinates N 218,673.94, E 273,354.09), thence with said curve 578.10 feet to the P.T. of said curve (Coordinates N 218,851.74, E 272,806.35), thence N 80° 51' 00" West 2162.50 feet to the intersection with the South right-of-way of U. S. Highway No. 90 (Coordinates N 219,195.62, E 270,671.32), thence N 55° 54' 00" East 51.08 feet to the true point of beginning (Coordinates N 219,224.26, E 270,713.62).

All Coordinates are plane coordinates, Transverse Mercator Projection for the State of Mississippi, East Zone. All bearings refer to Grid North, Transverse Mercator Projection for the State of Mississippi, East Zone.

PARCEL NO. 7

BOOK *T-3* PAGE *317*

A tract of land containing 1.38 acres, more or less, located in Section 19, T-9-S, R-15-W, Hancock County, Mississippi, being designated as Parcel No. 7 on the attached "Plat of Land Owned by International Paper Company for Access Road - West Hancock County Harbor and Industrial Development", as prepared by Michael Baker, Jr., Inc., Consulting Engineers, Jackson, Mississippi, and dated October 1966, and being described as follows:

Beginning at a point (Coordinates N 209,902.60, E 275,291.89) located N 00° 22' 41" E, 1340.19 feet from the Southwest Corner of Section 19, T-9-S, R-15-W (Coordinates N 208,562.44, E 275,283.04), thence with a 6° 25' 13" curve to the left 667.64 feet to the intersection with the West Right-of-Way line of Ansley Road, Federal Aid Secondary Project No. S-1106 (2) B, (Coordinates N 210,132.37, E 275,902.25), thence with said Right-of-Way S 29° 08' 00" E, 274.98 feet to a point (Coordinates N 209,892.17, E 276,036.12), thence leaving said Right-of-Way N 89° 11' 49" W, 744.30 feet to the true point of beginning (Coordinates N 209,902.60, E 275,291.89).

All Coordinates are plane coordinates, Transverse Mercator Projection for the State of Mississippi, East Zone. All bearings refer to Grid North, Transverse Mercator Projection for the State of Mississippi, East Zone.

PARCEL NO. 8

7-3 319

A tract of land containing 0.22 acres, more or less, located in Section 34, T-9-S, R-16-W, Hancock County, Mississippi, being designated as Parcel No. 8 on the attached "Plat of Land Owned by International Paper Company", as prepared by Michael Baker, Jr., Inc., Consulting Engineers, Jackson, Mississippi, and dated October 1966 and being described as follows:

Beginning at a point (Coordinates N 197,879.58, E 262,533.96 E) located N 75° 09' 47" W, a distance of 3,838.46 feet from a United States Coast and Geodetic Survey monument "HAAS", a standard brass disk set in concrete, (Coordinates N 196,896.67 E 266,244.44), thence N 21° 14' E, a distance of 120 feet, more or less, to a point on the right (West) bank of Mulatto Bayou at the level of ordinary high tide (Coordinates N 197,991.43, E 262,577.42), thence with the meanders of Mulatto Bayou South-easterly along the right (West) bank at the level of ordinary high tide a distance of 180 feet, more or less, to a point (Coordinates N 197,864.74, E 262,703.95) at the intersection of the South line of Section 34, T-9-S, R-16-W and the right (West) bank of Mulatto Bayou at the level of ordinary high tide; thence N 89° 30' W a distance of 170 feet, more or less, along the South line of Section 34, T-9-S, R-16-W, to the true point of beginning (Coordinates N 197,879.58, E 262,533.96).

The tract of land hereinabove described is situated in Lot No. 7, Section 34, T-9-S, R-16-W, lying West of Mulatto Bayou.

All Coordinates are plane coordinates, Transverse Mercator Projection for the State of Mississippi, East Zone. All bearings refer to Grid North, Transverse Mercator Projection for the State of Mississippi, East Zone.

Reference to right bank of Mulatto Bayou is determined by the examiner or viewer always facing downstream.

**ASTM E1527-13 PHASE I ENVIRONMENTAL
SITE ASSESSMENT USER QUESTIONNAIRE AND
DISCLOSURE STATEMENT**

ASTM E 1527-13 PHASE I ENVIRONMENTAL SITE ASSESSMENT USER QUESTIONNAIRE AND DISCLOSURE STATEMENT

Instructions to User: Please complete this questionnaire and return before Neel-Schaffer, Inc.'s site visit. For those questions that are not applicable, please respond "NA". If additional pages for responses are necessary, please attach them to this form with references to the appropriate question(s). This document and your written responses will be included as an appendix in the Phase I Environmental Site Assessment report. Please note that the use of "*property*" refers to the subject site.

In order to qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the User must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. These inquiries must also be conducted by EPA Brownfield Assessment and Characterization Grantees. The User should provide the following information to the Environmental Professional. Failure to conduct these inquiries could result in a determination that "all appropriate inquiries" is not complete.

1. **PROPERTY INFORMATION**

<i>Property Name:</i> Site #6, Port Bienville Industrial Park		
<i>Property Physical Address:</i> 13011 Port and Harbor Drive., Site #6 Pearlinton, MS 39572		
<i>Property Owner:</i> Hancock County Port & Harbor Commission (please contact first) Bill Cotter Telephone: 228.467.9231Cell:Email: bcotter@hcphc.ms		
<i>Name of site contact or key site manager (person who is familiar with current and past use of <i>property</i>):</i> Bo Ethridge Telephone: 228.467.9231Cell:Email: bethridge@hcphc.ms		
<i>Tax assessor's parcel number (if known):</i> 186P-0-23-008.000		
<i>Reason for performing Phase I ESA:</i> ☐ Qualify for Innocent Landowner defense to CERCLA Liability ☒ Other (state below) The Hancock County Port and Harbor Commission is in the process of obtaining a Project Ready Certification through the MS Power Project Ready Program.		
<i>Type of property transaction (for example, sale, purchase, exchange, lease, etc.):</i> Lease		
<i>Name of all parties who will rely on the Phase I ESA Report:</i> Hancock County Port and Harbor Commission, MS Power, Coast Electric, utility companies, future prospects, and anyone else the Hancock County Port and Harbor Commission feels would benefit from this information		
<i>Current title abstract and / or chain of title available? If so, please forward copies of those documents to Neel-Schaffer, Inc.</i> ☒ YES ☐ NO		

2. GENERAL SITE DESCRIPTION

Legal description / boundary survey / building construction diagrams available? If so, please forward copies of those documents to Neel-Schaffer, Inc.

☐ YES ☒ NO

Property Type (for example industrial, commercial, residential, multi-family residential, vacant, undeveloped):

Heavy Industrial I1

Total property size (acres):

50 acres

Total number of buildings on the property, square footage, and date(s) of construction:

There are no buildings on property

Date(s) and description of significant renovation or additions:

None

Wastewater discharge:

☒ Municipal Sanitary Sewer ☐ On-site Septic System ☐ Other

Potable water:

☒ Community Water Supplier ☐ On-site Well ☐ Other

Please summarize history of the property, back to the property's first developed use, or back to 1940, whichever is earlier.

3. INQUIRIES REQUIRED BY 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31.

Inquiry	Response	If yes, please describe
3.1 Environmental liens that are filed or recorded against the property (40 CFR 312.25). Did a search of recorded land title records (or judicial records where appropriate ¹) identify any environmental liens filed or recorded against the property under federal, tribal, state or local law?	☐ yes ☒ no	
3.2 Activity and use limitations (AULs) that are in place on the property or that have been filed or recorded against the property (CFR 312.26(a)(1)(v) and (vi)). Did a search of recorded land title records (or judicial records where appropriate ¹) identify any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state or local law?	yes ☒ no	
3.3 Specialized knowledge of experience of the person seeking to qualify for the LLP (40 CFR 312.28). Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business? If yes, please elaborate.	☐ yes ☒ no ☐ yes ☒ no	
3.4 Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29). Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?	☒ yes no ☐ yes ☒ no	
3.5 Commonly known or reasonably ascertainable information about the property (40 CFR 312.30). Are you aware of commonly known or reasonably ascertainable knowledge information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example: Do you know the past uses of the property? Do you know of specific chemicals that are present or once were present at the property? Do you know of spills or other chemical releases that have taken place at the property? Do you know of any environmental cleanups that have taken place at the property?	☐ ☐ yes ☒ no yes ☒ no yes ☒ no yes ☒ no	
3.6 The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31). Based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of releases at the property? If yes, please elaborate.	☐ yes ☒ no	

4. ONSITE OPERATIONS

Are you aware of any of the following conditions, either past or present, on the property?		
Condition	Response	If yes, please describe
1. Stored Chemicals	☐ Yes ☒ No	
2. Underground Storage Tanks (UST)	☐ Yes ☒ No	
3. Aboveground Storage Tanks (AST)	☐ Yes ☒ No	
4. Spills or Responses	☐ Yes ☒ No	
5. Dump Area / Landfills	☐ Yes ☒ No	
6. Waste Treatment Systems	☐ Yes ☒ No	
7. Oil Water Separators	☐ Yes ☒ No	
8. Air Stacks / Vents / Odors	☐ Yes ☒ No	
9. Floor Drains / Sumps	☐ Yes ☒ No	
10. Stained Soil / Impacted Vegetation	☐ Yes ☒ No	
11. Electrical Transformers	☐ Yes ☒ No	
12. Hydraulic Lifts / Elevators	☐ Yes ☒ No	
13. Wetlands / Flooding	☒ Yes ☐ No	Most of the site has wetlands
14. Oil / Gas / Water / Monitor Wells	☐ Yes ☒ No	
15. Environmental Cleanups	☐ Yes ☒ No	
16. Parts Washers / Degreasers	☐ Yes ☒ No	
17. Environmental Permits	☐ Yes ☒ No	If yes, please describe and attach all copies of permits and last three waste manifests, as applicable.
a) Industrial Discharge	☐ Yes ☒ No	
b) Water Discharge	☐ Yes ☒ No	
c) Hazardous Waste Generator	☐ Yes ☒ No	
d) Air Quality	☐ Yes ☒ No	
e) Flammable Materials	☐ Yes ☒ No	
f) AST / UST	☐ Yes ☒ No	
g) Waste Manifests	☐ Yes ☒ No	
h) Other	☐ Yes ☒ No	

5. PROPERTY USAGE ENVIRONMENTAL CONCERNS

Are you aware of any of the following property uses, either past or present, on or adjacent to the property?		
Condition	Response	If yes, please describe
Gasoline Stations	☐ Yes ☒ No	
Dry Cleaners	☐ Yes ☒ No	
Industrial Uses	☐ Yes ☒ No	
Landfills	☐ Yes ☒ No	
Other	☐ Yes ☒ No	

6. PREVIOUS INVESTIGATIONS

Report Type	Response	If yes, please describe conclusions and attach copy of report
Phase I Environmental Site Assessment	☐ Yes ☒ No	
Phase II Environmental Site Assessment	☐ Yes ☒ No	
Tank Tightness Testing	☐ Yes ☒ No	
Asbestos Survey	☐ Yes ☒ No	
Radon Survey	☐ Yes ☒ No	
Lead Based Paint Survey	☐ Yes ☒ No	
Geotechnical Report	☐ Yes ☒ No	
Other	☐ Yes ☒ No

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

EXECUTIVE SUMMARY

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA CORRACTS facilities list

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 12/12/2016 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<i>GE PLASTICS</i>	<i>3531 PORT AND HARBOR</i>	<i>SW 1/2 - 1 (0.645 mi.)</i>	<i>13</i>	<i>59</i>

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 12/12/2016 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
POLYCHEMIE, INC. (D.	ROAD D	NW 1/8 - 1/4 (0.214 mi.)	9	45

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/12/2016 has revealed that there are 2 RCRA-SQG sites within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

EXECUTIVE SUMMARY

State- and tribal - equivalent CERCLIS

SHWS: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. The data come from the Department of Environmental Quality's Uncontrolled Site Project Tracking System.

A review of the SHWS list, as provided by EDR, and dated 12/05/2016 has revealed that there are 2 SHWS sites within approximately 1 mile of the target property.

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

AIR SYNTHETIC MINOR

TSCA SUBMITTER

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

MS-ENSITE (Mississippi - Tools For Environmental Management And Protection Organizations). Mississippi Department of Environmental Quality (MDEQ) Office of Pollution Control's (OPC) maintains enSite. It is the electronic Environmental Site Information System that regulates compliance assurance, permitting, activity tracking, and maintenance of a single agency interest-link to definition master file.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

SUPERFUND (NON-NPL)

HAZARDOUS WASTE BIENNIAL REPORTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and its Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

US EPA Risk Management Plan (RMP) database stores the risk management plans reported by companies that handle, manufacture, use, or store certain flammable or toxic substances, as required under section 112(r) of the Clean Air Act (CAA).

Handler Activities Summary:

U.S. importer of hazardous waste: No
Mixed waste (haz. and radioactive): No
Recycler of hazardous waste: No
Transporter of hazardous waste: No
Treater, storer or disposer of HW: No
Underground injection activity: No
On-site burner exemption: No
Furnace exemption: No
Used oil fuel burner: No
Used oil processor: No
User oil refiner: No
Used oil fuel marketer to burner: No
Used oil Specification marketer: No
Used oil transfer facility: No
Used oil transporter: No

Universal Waste Summary:

Waste type: Lamps
Accumulated waste on-site: Yes
Generated waste on-site: Not reported

. Waste code: D001
. Waste name: IGNITABLE WASTE

. Waste code: D002
. Waste name: CORROSIVE WASTE

. Waste code: D035
. Waste name: METHYL ETHYL KETONE

. Waste code: F002
. Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F003
. Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED

Biennial Reports:

Last Biennial Reporting Year: 2013

Annual Waste Handled:

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Amount (Lbs): 69860

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE

Handler Activities Summary:

U.S. importer of hazardous waste: No
Mixed waste (haz. and radioactive): No
Recycler of hazardous waste: No
Transporter of hazardous waste: No
Treater, storer or disposer of HW: Yes
Underground injection activity: No
On-site burner exemption: No
Furnace exemption: No
Used oil fuel burner: No
Used oil processor: No
Used oil refiner: No
Used oil fuel marketer to burner: No
Used oil Specification marketer: No
Used oil transfer facility: No
Used oil transporter: No

Universal Waste Summary:

Waste type: Batteries
Accumulated waste on-site: Yes
Generated waste on-site: No

Waste type: Lamps
Accumulated waste on-site: Yes
Generated waste on-site: No

Waste type: Thermostats
Accumulated waste on-site: Yes
Generated waste on-site: No

Biennial Reports:

Last Biennial Reporting Year: 2013

Annual Waste Handled:

Waste code: D001

Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Amount (Lbs): 804958

Waste code: D002

Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Amount (Lbs): 350

Waste code: D018

Waste name: BENZENE

Amount (Lbs): 744460

Waste code: D035

Waste name: METHYL ETHYL KETONE

Event:	Current Human Exposures under Control, Yes, Current Human Exposures Under Control has been verified. Based on a review of information contained in the EI determination, current human exposures are expected to be under control at the facility under current and reasonably expected conditions. This determination will be re-evaluated when the Agency/State becomes aware of significant changes at the facility.
Event date:	11/07/2013
Event:	Date For Remedy Selection (CM Imposed)
Event date:	11/07/2013
Event:	Igration of Contaminated Groundwater under Control, Yes, Migration of Contaminated Groundwater Under Control has been verified. Based on a review of information contained in the EI determination, it has been determined that migration of contaminated groundwater is under control at the facility. Specifically, this determination indicates that the migration of contaminated groundwater is under control, and that monitoring will be conducted to confirm that contaminated groundwater remains within the existing area of contaminated groundwater. This determination will be re-evaluated when the Agency becomes aware of significant changes at the facility.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where no further response is appropriate.

	Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

ENG CONTROLS: Sites with Engineering Controls

Sites included on the CERCLA/Uncontrolled Sites File List that have Engineering Controls. Engineering Controls encompass a variety of engineered remedies to contain and/or reduce contamination, and/or physical barriers intended to limit access to property. ECs include fences, signs, guards, landfill caps, provision of potable water, slurry walls, sheet pile (vertical caps), pumping and treatment of groundwater, monitoring wells, and vapor extraction systems

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

RADINFO: Radiation Information Database

The Radiation Information Database (RADINFO) contains information about facilities that are regulated by U.S. Environmental Protection Agency (EPA) regulations for radiation and radioactivity.

Date of Government Version: 01/04/2017	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/06/2017	Telephone: 202-343-9775
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 04/06/2017
Number of Days to Update: 35	Next Scheduled EDR Contact: 07/17/2017
	Data Release Frequency: Quarterly

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/01/2007	Telephone: 202-564-2501

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General North

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
28045C0406D	FEMA FIRM Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>
28045C0315D	FEMA FIRM Flood data

28045C0402D	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
ENGLISH LOOKOUT	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: ESCAMBIA

Soil Surface Texture: loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Somewhat poorly drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 61 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	14 inches	loam	Not reported	Not reported	Max: 42.34 Min: 14.11	Max: 5.5 Min: 3.6
2	14 inches	33 inches		Not reported	Not reported	Max: 14.11 Min: 4.23	Max: 5.5 Min: 3.6
3	33 inches	59 inches		Not reported	Not reported	Max: 4.23 Min: 0.42	Max: 5.5 Min: 3.6

Soil Map ID: 2

Soil Component Name: OCILLA

Soil Surface Texture: loamy sand

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Somewhat poorly drained

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 53 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: US Fish & Wildlife Service

Telephone: 703-358-2171

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Health Department Wells

Source: Mississippi Automated Resource Information System Technical Center

Telephone: 601-432-6149

Public supply water wells monitored by the Environmental Division of the Department of Health.

Permitted Wells

Source: Mississippi Automated Resource Information System Technical Center

Telephone: 601-432-6149

Water wells, 6-inches in diameter or larger that are permitted and monitored by the Office of Land and Water Resources.

USGS Private Wells

Source: Mississippi Automated Resource Information System Technical Center

Telephone: 601-432-6149

Privately owned water wells monitored by the USGS.

USGS Public Wells

Source: Mississippi Automated Resource Information System Technical Center

Telephone: 601-432-6149

Publicly owned water wells monitored by the USGS.

TABLE OF CONTENTS

The EDR-Site Report™ is a comprehensive presentation of government filings on a facility identified in a search of federal, state and local environmental databases. The report is divided into three sections:

Section 1: Facility Summary Page 3

Summary of facility filings including a review of the following areas: waste management, waste disposal, multi-media issues, and Superfund liability.

Section 2: Facility Detail Reports Page 4

All available detailed information from databases where sites are identified.

Section 3: Databases and Update Information. Page 7

Name, source, update dates, contact phone number and description of each of the databases for this report.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

SECTION 1: FACILITY SUMMARY

FACILITY	FACILITY 1
AREA	3080 PORT & HARBOR DRIVE PEARLINGTON, MS 39520 EDR ID #2005755726
WASTE MANAGEMENT Facility generates hazardous waste (RCRA)	NO
Facility treats, stores, or disposes of hazardous waste on-site (RCRA/TSD)	NO
Facility has received Notices of Violations (RCRA/VIOL)	NO
Facility has been subject to RCRA administrative actions (RAATS)	NO
Facility has been subject to corrective actions (CORRACTS)	NO
Facility handles PCBs (PADS)	NO
Facility uses radioactive materials (MLTS)	NO
Facility is a FUSRAP Site	NO
Facility is a UXO Site	NO
Facility is a FUELS Site	NO
Facility is an DockHWC/ECHO Site	NO
Facility manages registered aboveground storage tanks (AST)	NO
Facility manages registered underground storage tanks (UST)	NO
Facility has reported leaking underground storage tank incidents (LUST)	NO
Facility has reported emergency releases to the soil (ERNS)	YES - p4
Facility has reported hazardous material incidents to DOT (HMIRS)	NO
WASTE DISPOSAL Facility is a Superfund Site (NPL)	NO
Facility has a known or suspect abandoned, inactive or uncontrolled hazardous waste site (SEMS)	NO
Facility has a reported Superfund Lien on it (LIENS)	NO
Facility is listed as a state hazardous waste site (SHWS)	NO
Facility has disposed of solid waste on-site (SWF/LF)	NO
MULTIMEDIA Facility uses toxic chemicals and has notified EPA under SARA Title III, Section 313 (TRIS)	NO
Facility produces pesticides and has notified EPA under Section 7 of FIFRA (SSTS)	NO
Facility manufactures or imports toxic chemicals on the TSCA list (TSCA)	NO
Facility has inspections under FIFRA, TSCA or EPCRA (FTTS)	NO
Facility is listed in EPA's index system (FINDS)	NO
Facility is listed in other database records (OTHER)	NO
POTENTIAL SUPERFUND LIABILITY Facility has a list of potentially responsible parties PRP	NO
TOTAL (YES)	1

TABLE OF CONTENTS

The EDR-Site Report™ is a comprehensive presentation of government filings on a facility identified in a search of federal, state and local environmental databases. The report is divided into three sections:

Section 1: Facility Summary Page 3

Summary of facility filings including a review of the following areas: waste management, waste disposal, multi-media issues, and Superfund liability.

Section 2: Facility Detail Reports Page 4

All available detailed information from databases where sites are identified.

Section 3: Databases and Update Information. Page 5

Name, source, update dates, contact phone number and description of each of the databases for this report.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Neel-Schaffer, Inc. were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDR's Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Search Results:**Coordinates:**

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Neel-Schaffer, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EDR BUILDING PERMIT REPORT

About This Report

The EDR Building Permit Report provides a practical and efficient method to search building department records for indications of environmental conditions. Generated via a search of municipal building permit records gathered from more than 1,600 cities nationwide, this report will assist you in meeting the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

Building permit data can be used to identify current and/or former operations and structures/features of environmental concern. The data can provide information on a target property and adjoining properties such as the presence of underground storage tanks, pump islands, sumps, drywells, etc., as well as information regarding water, sewer, natural gas, electrical connection dates, and current/former septic tanks.

ASTM and EPA Requirements

ASTM E 1527-13 lists building department records as a "standard historical source," as detailed in § 8.3.4.7: "Building Department Records - The term building department records means those records of the local government in which the property is located indicating permission of the local government to construct, alter, or demolish improvements on the property." ASTM also states that "Uses in the area surrounding the property shall be identified in the report, but this task is required only to the extent that this information is revealed in the course of researching the property itself."

EPA's Standards and Practices for All Appropriate Inquiries (AAI) states: "§312.24: Reviews of historical sources of information. (a) Historical documents and records must be reviewed for the purposes of achieving the objectives and performance factors of §312.20(e) and (f). Historical documents and records may include, but are not limited to, aerial photographs, fire insurance maps, building department records, chain of title documents, and land use records."

Methodology

EDR has developed the EDR Building Permit Report through our partnership with BuildFax, the nation's largest repository of building department records. BuildFax collects, updates, and manages building department records from local municipal governments. The database now includes 30 million permits, on more than 10 million properties across 1,600 cities in the United States.

The EDR Building Permit Report comprises local municipal building permit records, gathered directly from local jurisdictions, including both target property and adjoining properties. Years of coverage vary by municipality. Data reported includes (where available): date of permit, permit type, permit number, status, valuation, contractor company, contractor name, and description.

Incoming permit data is checked at seven stages in a regimented quality control process, from initial data source interview, to data preparation, through final auditing. To ensure the building department is accurate, each of the seven quality control stages contains, on average, 15 additional quality checks, resulting in a process of approximately 105 quality control "touch points."

For more information about the EDR Building Permit Report, please contact your EDR Account Executive at (800) 352-0050.

The EDR Property Tax Map Report

EDR Property Tax Map Report

Environmental Data Resources, Inc.'s EDR Property Tax Map Report is designed to assist environmental professionals in evaluating potential environmental conditions on a target property by understanding property boundaries and other characteristics. The report includes a search of available property tax maps, which include information on boundaries for the target property and neighboring properties, addresses, parcel identification numbers, as well as other data typically used in property location and identification.
